The subjoined Table exhibits the number of Graduates at each Commencement since the establishment of the Institution, and (with the exceptions stated below,) the number of Matriculates during each year since the organization of the Faculty, by the appointment of the late Dr. CALDWELL as President, 11th July, 1804.

The first printed Catalogue of Students appeared in 1819. It having been issued in the early part of the Collegiate year, the number of Matriculates in that year, as for some time afterwards, was greater than is stated in the Table. The later Catalogues have generally contained the names of all who were connected with the Institution in each year.

### Table:

\*Geography SHOULD form no part of the College course—being a study suited to the capacity of a child of from 7 to 10 years of age. But the lamentable ignorance of some who know more or less of Latin or Greek, renders it necessary to give it a hasty review. It is hoped that when Morse's excellent School Geography with Cerographic Maps shall come into general use, this will be unnecessary—so far, at least, as Modern Geography is concerned.

## DEPARTMENT OF LATIN.

REV. FORDYCE M. HUBBARD, A. M. Professor.

ASHBEL G. BROWN, Tutor.

WILLIAM H. JOHNSTON, Tutor.

### IN THIS DEPARTMENT.

The FRESHMAN CLASS have in the 1st Term 76 recitations.

|   |           |   |   |   |     |   |    |   |
|---|-----------|---|---|---|-----|---|----|---|

| " | JUNIOR    | " | " | " | 1st | " | 57 | " |
| " | SENIOR    | " | " | " | 2d  | " | 30 | " |

In the FRESHMAN Class, the first term is employed in reading six books of Livy; the second is devoted to Virgil's Georgics.

The SOPHOMORE Class reads in the first term, the Odes and Satires of Horace; and in the second, the Epistles of Horace, (except the Art of Poetry,) and the Satires of Juvenal.

The JUNIOR Class is employed, during the first term, upon the Germania and the Agricola of Tacitus, the Cato and Lælius of Cicero, and Horace's Art of Poetry.

The recitations of the SENIOR Class are devoted to Cicero de Officiis.

The instruction of the FRESHMAN Class is committed to the Tutors of Languages; the other Classes are instructed by the Professor of Latin, aided by the Senior Tutor, Mr. Brown, in the first session of the Sophomore year.

## DEPARTMENT OF GREEK.

M. FETTER, Professor.

A. G. BROWN, Tutor.

W. H. JOHNSTON, Tutor.

### IN THIS DEPARTMENT

The FRESHMAN Class has, in the 1st term, 95 recitations.

|   |           |   |   |   |     |   |    |   |
|---|-----------|---|---|---|-----|---|----|---|
| " | "         | " | " | " | 2d  | " | 72 | " |

| " | "         | " | " | " | 2d  | " | 72 | " |
| " | JUNIOR    | " | " | " | 2d  | " | 54 | " |
| " | SENIOR    | " | " | " | 1st | " | 38 | " |

In the first term, the FRESHMAN Class reads the Anabasis of Xenophon, and in the second, one Book of Herodotus.

The SOPHOMORE CLASS, during the first term, is occupied with one Book of Thucydides and 2 Books of Homers' Iliad; the second, after the completion of 5 Books of Homer, is devoted to select Orations of Demosthenes.

The JUNIOR CLASS has no recitations in Greek during the first term; it employs the second upon two Tragedies of Sophocles, as selected by the Professor.

An additional Tragedy of Sophocles engages the attention of the SENIOR CLASS.

The Tutors in this department are charged with the instruction of the FRESHMAN CLASS. During the second term, the Senior Tutor, Mr. Brown, takes a part of the recitations of the Sophomore Class.

The Text-books in use are the small German Editions, published at Leipsic.

The instructors in the Latin and Greek Departments have to complain, that candidates for admission are generally found deficient in some part of the preparatory studies.

Proper attention is seldom paid to Latin construction.

However carefully a pupil may read the authors in a language, an accurate knowledge of its syntax will scarcely ever be acquired without regular and continued training by special exercises. In the Greek Grammar, in Roman and Grecian Antiquities, Ancient Geography and Mythology, the preparation is generally defective. Young men come to us without a sufficient knowledge of these subjects to qualify them for understanding the very authors they have been studying at school. Under these circumstances, the College instructor, instead of employing his classes in exercises calculated to mature their scholarship and taste, is obliged to continue the drilling of the Grammar school without its advantages for ensuring success.

The amount of reading required in Greek is sufficiently small, and yet a considerable portion of this is omitted by most of those who apply for admission. A careful study of the whole of the Greek Reader or its equivalent is important to the attainment of a high rank in scholarship, and hereafter less than this cannot be accepted.

To the faithful Teachers who are laboring to promote classical learning by thorough elementary instruction, we are already much indebted. We trust that our obligations to them will be still further increased, for on their efforts we must, in a great measure, depend for success in elevating the standard of scholarship in the University.

## DEPARTMENT OF FRENCH.

REV. ALBERT M. SHIPP, A. M., Professor.

---

### IN THIS DEPARTMENT,

The SOPHOMORE CLASS has in the 2d term 18 recitations.

|          |   |   |   |     |   |    |   |
|----------|---|---|---|-----|---|----|---|
| " JUNIOR | " | " | " | 1st | " | 57 | " |

| " SENIOR | " | " | " | 1st | " | 19 | " |
| " "      | " | " | " | 2d  | " | 16 | " |

The attention of the SOPHOMORE CLASS is occupied prin-

cipally with the pronunciation of the language and the study of the Grammar, while they acquire some knowledge of words from the use of Bolmar's Fables. The first term of the JUNIOR year is employed upon Voltaire's Charles XII. The remainder of the course is devoted to Moliere's Comedies and Racine's Tragedies.

The Tutors of Mathematics have charge of the Instruction in Algebra, Geometry, the various applications of Plane Trigonometry, and in Spherical Trigonometry. The rest of the course is under the supervision of the Professor of Mathematics. The Students are expected to prepare thoroughly the lessons appointed in their text-books, and in this preparation, they are assisted by such explanations in the Recitation Room, and out of it, as the Instructor may deem necessary.

Lectures, accompanied by appropriate Experiments, succeed the Recitations in Natural Philosophy and Astronomy. They are designed to afford the students more minute, as well as extended views of the subjects already presented to their consideration, and by exciting curiosity, to give them interest and permanency.

As Arithmetic is the foundation of Mathematics, and the only branch of this Science required for admission into the Freshman Class, and intimate acquaintance with it will be expected of all applicants for Matriculation.

The attention of those preparing for advanced standing in any of the College Classes, is earnestly invited to the course of instruction in the University. The Mathematical text-books have been selected with great care, and are believed to be second to none in the United States. Previous to their adoption, they were read through and compared with others, and the opinion was formed, that they were the productions of one who had judiciously selected and thoroughly digested his materials. There is such clearness and conciseness in the definitions, such simplicity, uniformity and beauty in the notation, as cannot fail to commend themselves to those engaged in teaching. In taking up a new author, the Student often sees no connection with what he has already mastered, and feels himself embarrassed with novelties in notation, in modes of presenting and investigating subjects, and with references to matters of which he is profoundly ignorant. With these he

must make himself fully acquainted, or be contented with a defective and insufficient preparation of his task. If he desire and determine to be a scholar, he must seek, at whatever sacrifice, the requisite information; but if not—and the temptations to avoid labor are neither few nor feeble—the road to distinction will be found closed against him, and impeded and discouraged by increasing darkness, he will cease to make further efforts, and the fond hopes of parents and friends will be frustrated.

## DEPARTMENT OF LOGIC AND RHETORIC.

REV. JOHN THOMAS WHEAT, D. D., Professor.

The Studies and Exercises of this Department commence with the first term of the Freshman year, and continue throughout the whole course. The text-books are

SARGENT'S STANDARD SPEAKER.

WHATELY'S LOGIC.

WHATELY'S RHETORIC. SIDNEY SMITH'S PHILOSOPHICAL SKETCHES.

The FRESHMAN Class, in its first term, has two recitations a week in Elocution.

The SOPHOMORE and JUNIOR Classes write Compositions once in three weeks.

The JUNIOR Class reads Whately's Logic and Rhetoric, and S. Smith's Philosophical Sketches.

The SENIOR Class is required to deliver orations in the College Chapel twice during the year, in addition to the usual exercises of Commencement.

The three lowest classes, in rotation, declaim daily.

## DEPARTMENT OF CHEMISTRY, MINERALOGY, GEOLOGY.

REV. ELISHA MITCHELL, D. D. Professor.

On these branches, three lectures, illustrated by appropriate experiments and the exhibition of specimens, are commonly delivered to the Senior Class, and such persons pursuing a Partial Course, as choose to apply themselves to these studies, in every week. The Lecture is succeeded, after an interval of an hour, or an hour and a half, by an examination extending through one hour, upon the facts and doctrines that were its subject. With these, the Student is expected to have made himself thoroughly acquainted, through the medium of notes taken at the time, and some book of Elements. The text-books of Dr. DRAPER, of the New York University, and of Prof. SILLIMAN, of Yale College, are recommended.

The history of Chemistry, its Nomenclature and General Doctrines, the Imponderables, (under which head the phenomena and laws of Light, Heat, Electricity, and Galvanism are treated of at such length as their relations to the science of Chemistry seem to require,) and the non-metallic elements, occupy the first term. In the second, the non-metallic elements, if any part remain unfinished, are completed—with the Chemistry of the Metals and of Organized bodies.

In Natural History, the Sciences of Botany and Zoology receive attention so far only as is necessary to a knowledge of their methods, the classification, and the means employed for distinguishing different plants and animals from each other. A much larger portion of time is devoted to Mineralogy, and pains taken to render the Student familiar with the common and more useful minerals. With reference to this object, a very sufficient collection has been made, and is increasing from year to year, of such species as the rocks of North Carolina, especially, afford, but which contains many specimens, also, from the neighboring States, and distant parts of the world. To this the Student has

free access, and ample opportunity of learning to distinguish one species from another. The cabinet purchased some years since in Vienna, affords additional facilities, where a more accurate knowledge of the science is desired.

Geology is taken up near the close of the first, and continued through the whole of the second term. It is taught in lectures, and studied in a small volume prepared for the use of the Students, and in the composition of which, constant reference was had to the rock formations of North Carolina.

## **Moral Philosophy, Metaphysics,**

**Political Economy, International and Constitutional Law.**

### **THE PRESIDENT.**

Instruction in these branches is given the SENIOR CLASS, during three days of every week in the Collegiate year.

Metaphysics and Political Economy receive attention during the first term. The Sunday Recitations throughout the year are devoted to the Old Testament and Moral Science, and in addition, the recitations on Monday afternoon of the second term, are ordinarily assigned to the latter study.

The text-books are, The Bible, Wayland's Moral Science, Abercrombie's Inquiries concerning the Intellectual Powers, (Abbott's Edition,) Wayland's Political Economy, Story's Familiar Exposition of the Constitution, and the first volume of Kent's Commentaries on American Law.

No portion of either of the text-books (except the Bible, instruction in which is confined to the Pentateuch) is omitted, but the whole carefully recited, subsequently reviewed, and each member of the class separately and rigidly examined on the entire system.

Oral Lectures are given, whenever, in the opinion of the

Instructor, they are calculated to promote the improvement of the class; and towards the close of the second term, a regular course is delivered on the History of Constitutional Law, presenting an analytical review, in chronological order, of the MAGNA CHARTA of King John; the Petition of Right; the Charters of Carolina; the Fundamental Constitutions, (by John Locke;) the Habeas Corpus Act; the Bill of Rights; the Declaration of Independence; the Articles of Confederation; the Treaty of Peace with Great Britain, and the Constitution of the United States.

| Total, from                                   |   |   |   |   |   |   | \$170 | to \$185 |

Board, of a quality not inferior to what is furnished at the Tables of the most respectable Boarding Houses of the neighboring villages, may be had at \$9 to \$10 per month. In addition to the above expenses, there are those incurred for books, pocket money, and certain others incident to a connection with the Literary Societies, the amount of which is fixed by the private regulations of those bodies.

The whole series of books, for the four years, may be purchased for from \$50 to \$55. It is desirable that every Stu-

dent shall retain his Text-Books, and take them with him when he leaves college; but as they are, not unfrequently, parted with to the succeeding classes, at a reduced price, this item of expense is thereby less burthensome to many.

Every student is required, on his arrival at the commencement of each Session, to deliver to the Bursar, (Professor Mitchell) the moneys and drafts for money, which he has brought with him.

It is the duty of the Bursar to attend to the settlement of the demands for board, &c.—to pay into the hands of the Student such sums as are required for other necessary expenses, and to render a statement of the same to the Parent or Guardian at the close of the Session.

The Merchants in this place have entered into an engagement, that the system of unlimited credits, heretofore in use, shall be abandoned; and that they will confine themselves in this particular, to those cases in which the Parent or Guardian has previously given a specific and definite sanction, and thus rendered the transaction his own. From the foregoing statements, it will be seen what amount of money a young man is likely to require. With the safeguards, therefore, that have been provided, there is every reasonable security, if the regulations of the Trustees are complied with, that there will be no disappointment in regard to the expense of an Education at the University.

The Faculty concur in the opinion expressed upon this subject by the Executive Committee, in their Circular Address to Parents and Guardians, on the 15th of April, 1837, that exclusive of the supplies of clothing ordinarily obtained from home, more than two hundred and fifty dollars per annum is not necessary to either the comfort or convenience of any young man while at this Institution.

The Faculty are authorized in all cases, where the applicant is a native of the State, sustains a fair moral character, is believed to possess good talents and studious habits, and is unable to defray the expenses of tuition and room rent, to admit him, free of charge, into any class for which he may be prepared.

## Law Department.

HON. WILLIAM H. BATTLE, A. M. Professor.

A department for the study of Municipal Law has recently been established, and placed under the charge of the Professor of Law. This department contains two Classes, of which the first, called the Independent Class, will consist of such Students of Law as have no connexion with any of the College Classes ; and the second, called the College Class, will consist of such irregular members of College as, with the permission of the Faculty, may be desirous of joining it.

The plan of studies comprises Blackstone's Commentaries, Kent's Commentaries, Stephen on Pleading, Chitty on Pleading, Greenleaf on Evidence, Chitty on Contracts, Cruise's Digest of Real Property, and Williams on Executors, together with Lectures on the municipal Laws of the State, as modified by the Acts of the Legislature and decisions of the State Courts. A complete course will occupy two years for the Independent Class, and two years and a half for the College Class, at the end of which the degree of Bachelor of Law will be conferred on such students as by their proficiency may be entitled to it.

The Independent Class will be called on for recitations three times a week. The recitations of the College Class will be only once a week, and will be so arranged as not to interfere with the ordinary studies of College.

A Moot Court will be held occasionally by the Professor, for the discussion by the Students, of such legal questions as he may propose. The Students will also be required, from time to time, to draw pleadings and other legal instruments, and be instructed in the practice of the Courts.

The Professor of Law receives no salary from the Trus-

tees of the University, but is entitled to demand from each member of the Independent Class, fifty dollars per session for the two first sessions of the course, and twenty five dollars per session afterwards ; and from each member of the College Class twenty-five dollars per session. The sessions and vacations of this department will be the same as those of the College, but the Professor will give instruction during the vacations to such members of either Class as desire it, without an extra charge.

The Professor of Law, and the members of the Independent Class will not be subject to any of the ordinary College regulations.

---

## The Annual Commencement Is on the first Thursday in June.

---

The PHILANTHROPIC and DIALECTIC Societies select, alternately, one of their members to deliver an Address before the two bodies, on the forenoon of the day preceding the Commencement.

---

All the Classes are required to attend Divine Worship in the College Chapel on Sunday forenoon, and in the afternoon, to recite on the Historical parts of the Old and New Testaments.

The Collegiate year is divided into two Sessions or Terms, the one commencing six weeks after the first Thursday in June, the other six weeks after the Friday, succeeding the fourth Friday in November.
